

A Report On

“Vishwakarma Yojana phase-vi”

TECHNICAL WORKSHOP (CIVIL)

For Rural Villages & Smart Cities

Date: 23rd March, 2019, 10.30 AM to 6.00 PM
Venue : B0-Conference Hall , GTU Campus,

Presented by:

Prof. (Dr.) Jayesh Deshkar

Ms. Darshana Chuhan

GUJARAT TECHNOLOGICAL UNIVERSITY
Ahmedabad

Gujarat Technological University
Ahmedabad, Gujarat.

Technical workshop of Vishwakarma Yojana Phase-VI at GTU, Chandkheda

Concept by Prof. Dr. Navin sheth, Hon'ble Vice Chancellor:

The aim of the Vishwakarma Yojana was to study village life with respect to the delivery of basic needs and then to re-imagine, redesign, rejuvenate and strengthen the community life. Any research work without direct relevance to the society will not normally lead to great Engineering Research. The students are required to re-imagine & redesign the infrastructure and make sure that the soul of the village is supported by the new

Gujarat Technological University had organized a One Day Technical Workshop of Vishwakarma Yojana Phase-VI for the students of Civil Engineering on, **For Rural Villages & Smart Cities- Scope and Opportunities in Town Planning & Shyama Prasad Mukherji Rurban Mission (SPMRM)-Initiative for Integrated Cluster Development of Rural Area & Village Planning and Development A special focus on Vrundavan Gam Yojana (Civil Engineering Students)**” held on 23rd March, 2019 at GTU, Chandkheda Campus.

Prof.(Dr.)J.C.Lilani, Registrar, GTU welcomed Experts Faculty , all invitees & participants in the workshop, and given the insight students and faculty importance for development of the university, and welcomed all the dignitaries with the token of the Books.

Ms. Darshana Chauhan, OSD. given introduction of the Expert speakers **Dr.Vatsal Patel, Chief City Planner, Ahmedabad, Mr.Hakimuddin M. Bharmal, Principal Architect & Urban & Regional Planner, Abhivyakti, Associate Professor, Indulal Parekh School of Architecture, Rajkot, Mr. Keyur Nagecha, Assistant Professor, V.V.P Engineering,Rajkot, 5** Nodal officers and 250 students from 32 Institutes affiliated with GTU were remain present. She explained that **Prof.(Dr.) Jayesh Deshkar, Honorary Director-Vishwakarma Yojana Project, Principal-VVP Engineering College, Rajkot, who's constant support making this project successful.**

Technical Session has been clustered in Three core themes:

- (I) Scope and Opportunities in Town Planning
- (II) Shyama Prasad Mukherji Rurban Mission (SPMRM) - Initiative for Integrated Cluster Development of Rural Area
- (III) Village Planning and Development A special focus on Vrundavan Gam Yojana

Technical Session I

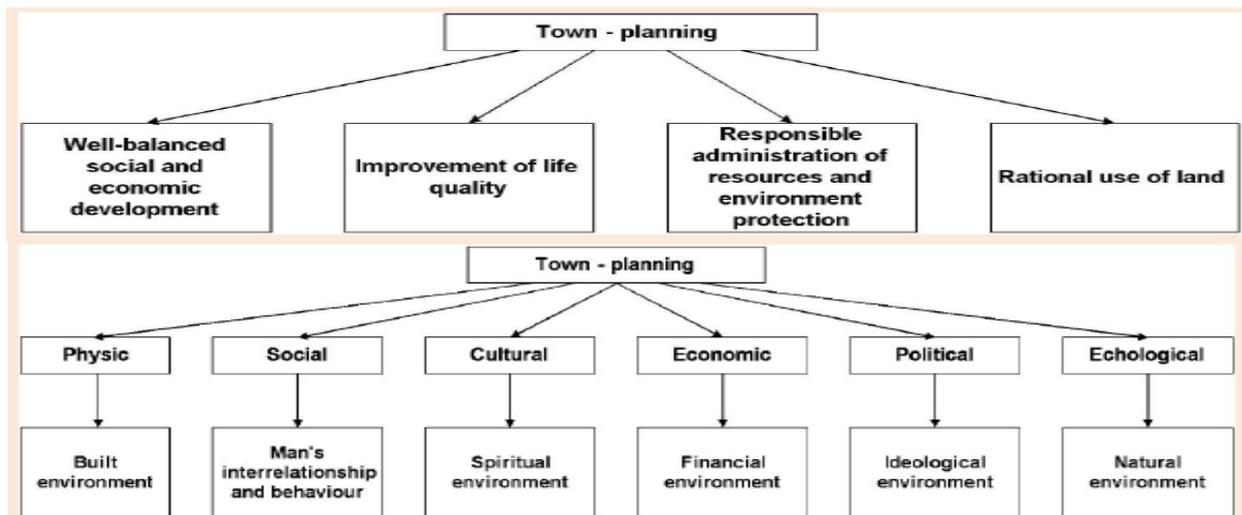

Scope and Opportunities in Town Planning

Dr. Vatsal Patel, has worked as Chief Town Planner at Ahmedabad Municipal Corporation. Post-Graduation in civil engineering and having professional experience of more than 35 years in the field of large scale infrastructure design development and area development

The first Session of Expert faculty has been delivered by Dr. Vatsal Patel. And he has highlighted importance of rural area and explained importance of town planning, urban planning processes, objectives of town planning in development of rural areas etc. He explained various schemes of town planning by correlating life of students with it. He also gave idea about importance of Building Bye Laws and National Building Code in construction work. He has Also explained upcoming career opportunities in shaping places and localities across town planning, role of town planner Urban Designer, Planning Advisor, City Planner, planning manager etc. also he motivated the students to learn new things in their life to copped with new challenging arises at various places.

Urban development is societal development Planning and managing the development of contemporary cities is one of the major societal challenges all over the world today. There is a tremendous scope for the urban planning graduates. The programme is aimed at providing

the students with a sound education in urban and regional planning An art of shaping and guiding the physical growth of the town creating buildings and environments to meet the various needs such as social, cultural, economic and recreational etc. and to provide healthy conditions for both rich and poor to live, to work, and to play or relax, thus bringing the art and science of ordering the use of land and siting of buildings and communication routes so as to secure the maximum practicable degree of economy, convenience, and beauty. civilized physical background for human life It encompasses many different disciplines and brings them all under a single umbrella. Growth of the village “human communities are always in the process of changing” “the complexity of communities, concern about the future healthy conditions and environments to make right use of the land, to avoid encroachment of one zone over the other, Recreational amenities - open spaces, parks, gardens & playgrounds, town halls stadiums, community centers, cinema houses, and theatres, To preserve the individuality of the town.

Technical Session III

Village Planning and Development A special focus on Vrundavan Gam

Mr. Keyur Nagecha, Assistant Professor, V.V.P Engineering, Rajkot, having more than 19 years of experience. He has done his BE in Civil Engineering from BVM, V.V. Nagar and Masters in Town and Regional Planning from SVNIT, Surat. His interests areas are like Building and Town planning, construction management, professional practice, environmental engineering, remote sensing and geo informatics.

The Third Session has been delivered on the village planning and village development. Also the government of Gujarat Initiative of Vrindavan Gram Yojna was discussed in detail. It is rightly said by Mahatma Gandhi that India lives in the village. To make India great and reduce the migration from village to City, its important to empower the village with facilities available in urban areas. The guidelines and process of preparing the village planning & development plant and its implementation was covered in details. Only theoretical knowledge isn't sufficing the process was explained through the case studies of the successful village development. The villages of Hiwarebazar, Piplantree and Mawlynnog were discussed. From active participation of students, what makes these villages a success stories in village development were discussed too.

With this preliminary information the lecture was then lead to the special focus on Vrindavan Gram Yojna. VGY is having other elements like village natural resources management

efficiently available at Village level, sustainable utilization of soil for agricultural land, water resources, physical infrastructure i.e. roads, check dam, streetlight, lake etc., skills and human

COMPONENT 1	COMPONENT 2	COMPONENT 3
PREPARING A VILLAGE DATABASE P1 - Identify the key issues and problems P2 - Gather and update village information to identify key issues and problems P3 - Identify planning priorities based on all P4 - Organize one or more village meetings to discuss the problems, find and discuss solutions, ways to implement and manage.	GETTING PARTICIPATION & ENDORSING IT P1 - Identify planning priorities based on all P2 - Organize one or more village meetings to discuss the problems, find and discuss solutions, ways to implement and manage.	PARTICIPATORY PLANNING & MANAGEMENT P1 - Take stock of issues & identify the problems or needs P2 - Consider alternative solutions and select the most suitable and widely acceptable P3 - Detail the solution - the program or project (design, technical support, funds and other resources required, etc.) P4 - Decide the plan for doing the project - how it will be done, who will do it, etc. P5 - Call the necessary and implement the project or program. Monitoring and trouble-shooting will be done.
O1 and O2 will involve the first round of mobilization and planning, and provide the opportunity to discuss and agree upon to develop the next three steps (O3, O4 & O5). O3 - Develop a representative list of items on which data is to be collected O4 - Organize the system and decide to collect village-wide data O5 - Prepare a database with system for recording, analyzing, updating and archiving	P2 is a key step, which will need to be repeated. It is the main planning step. P1, P2, P3, P4 and P5 will be done. P1 - Prepare a preliminary plan of village residents or deciding all details, also in implementation and management (through devising a suitable system such as resident committees, etc.) P2 - Establish systems and practices for management and development (through group planning). P3 - Establish systems and practices for management and development (through group planning). P4 - Establish systems and practices for management and development (through group planning). P5 - Establish systems and practices for management and development (through group planning).	P1 - Establish systems and practices for management and development (through group planning). P2 - Establish systems and practices for management and development (through group planning). P3 - Establish systems and practices for management and development (through group planning). P4 - Establish systems and practices for management and development (through group planning). P5 - Establish systems and practices for management and development (through group planning).

were covered. The overall session was quite interactive and students learned a great deal about the village development and planning.

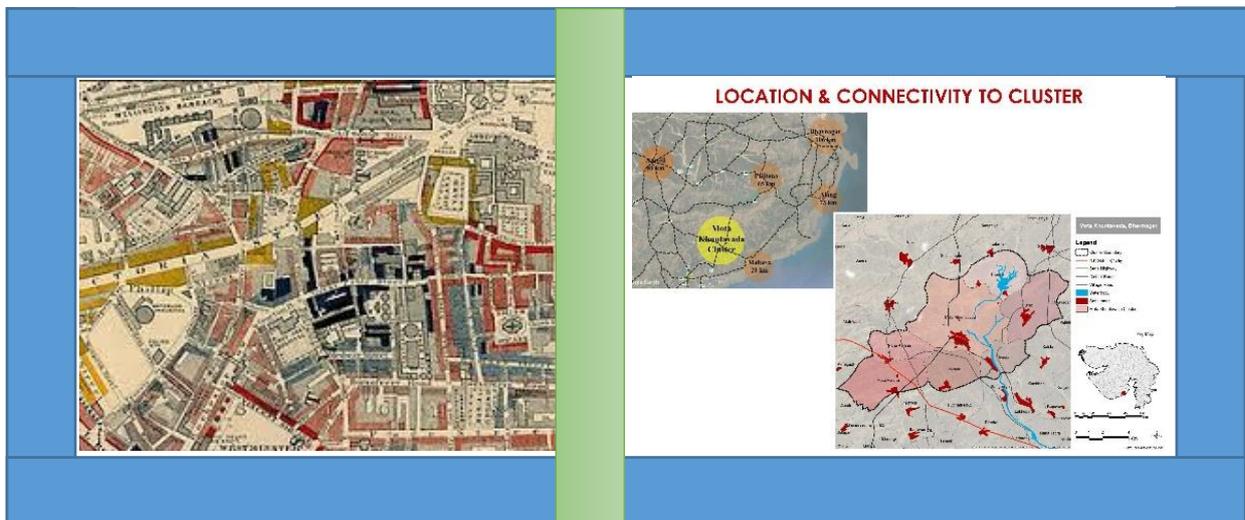

being livelihood, skill building & market linkages for economy earning, human development & improvement of their health, education facilities, beautification of villages, removal of alcoholism, domestic violence and other social evils through scientific approach, Wherein various traits of the scheme. The initiatives by the government, the collection of database and implementation strategies

Project Guidance and vote of thanks

Ms. Darshana Chauhan, On Behalf of VY-Section student expressed their gratitude and sincere thanks to **Prof. Dr. Navin Sheth, Hon'ble Vice Chancellor** for giving them opportunity for the village development. briefed about the points of VY-Phase-V-Part-I Project Detail reports designs. She has explained all the chapter wise where students needs to develop their report. She has also explained in detailed queries related to part-II project report. She gave solutions to different technical as well as administrative issues for village planning and development of the report. She had explained the design proposals for overall development of village includes Physical, Social and Socio-Cultural infrastructures facilities based from the gap analysis as well as chapters from future scope of the study from people's responses and various recommendation & suggestions for Sustainable village development should be included in DPR. She explained techniques for overall development of village with effective and sustainable planning. Nodal officer **Ms.Kinaari Shah from Government Engineering College, Godhara** explained how students should write in report with details understanding for designs in villages. She also thanked Prof. (Dr.) **Jayesh Deshkar, Honorary Director, Vishwakarma Yojana** for his constant support. She thanked all eminent speakers, Students, Nodal Officers, Co-coordinators of Vishwakarma Yojana for making the workshop successful.

On behalf of GTU
Prof.(Dr.) Jayesh Deshkar
Ms. Darshana Chauhan
